

My Father's pay

Musik und Text -Sascha klaar & Dieter Brink

So let us pray
For every father and every son
That they won't be shot by anyone
That they are not going to kill someone else

Lord, please give us hope
To every mother and her children
Yes, we all need a lot of peace in this world

Peace and freedom
For our children
And no one else kill somebody else

So let us pray
For every father and every son
That they are won't be shot by anyone
So let us pray
Yes we all need a lot of peace in this world

Vers

It's so hard to understand
So many wars and crimes around us
And all the people who have died
We have to watch and can do nothing

What will happen to our lives?
What will happen to our future?

They haven't learned from the past
War can not be a solution

It doesn't matter what religion you have
And the colour of your skin...

So let us pray...
